

# What is Motorola Connect?

2

- **Connect is a digital Trunking two-way radio system that enables you to accommodate high volume, wide area communication for your business needs.**
- **Single market coverage or multi market coverage, Connect can be scaled to meet your communication needs.**
- **Work teams can not only talk to one another or the main facility, they can also use data applications to make their jobs more efficient and safe, including;**
  - Text messaging
  - Location tracking
  - Dispatch capability
  - Data Applications (i.e.: open and closed gates, valves, etc...)
