Time is Running Out to Narrow Band

Will **YOU** be **PREPARED?** Under the new FCC law, businesses & organizations have until **January 1, 2013** to make the switch to narrow banding for their two-way radios and communications.

Anyone currently licensed at 25KHz will need to be licensed at 12.5KHz or less. If your business or organization does not comply with the narrow banding law by 2013, your radio communications will be **severely compromised**. **Integrated Communications Inc.** carries a **full range** of Motorola radios and staffs professional radio repair technicians. We can ease you through this transition to ensure that you're ready for the switch!

Please contact us at one of the following locations below with any questions or concerns in regards to the switch. Have a **FREE RADIO EVALUATION** from us!

Tennessee Location

6630 Reese Road, Memphis, TN 38133
 Phone: 901-366-4412

Mississippi Locations

2717 Mattox Street, Tupelo, MS 38801
