

## SOMETHING EXTRAORDINARY?

### HERE'S WHAT YOU CAN EXPECT:

- Featured presentations by two Motorola Solutions Vice Presidents about the trend of wireless technology
- The newest digital voice communications network for the Kansas City metro on display and operational
- An exhibit hall of the absolute latest wireless devices, network security and software for all enterprises, healthcare, education and government agencies
- Numerous breakout sessions for more in depth presentations on various applications
- Motorola and vendor engineering personnel on hand at each booth to answer all of your questions

This Expo features the equipment and software you have only read about in trade journals and it is all brought to Kansas City for one day for your viewing!

**Admission is FREE** with pre-registration! Free food and beverage throughout the day!

For questions about the EXPO, please contact [Gary Quint](#).
